

DS Series Driveway Scrapers

The Award winning Agritek DS Series Driveway Scrapers level dirt & gravel driveways, parking lots and playing area surfaces. The front blades cut down any high spots, mixing and moving that material to the wings which catch it and channels it across the full width of the rear blades to fill in any low spots.

All DS series Scrapers attach to a standard 3 point hookup and offer the following benefits:

- Removes washboard effect by filling in ruts
- Reversible 1/2" thick front and rear blades
- Does not create dips, swells or gouging
- Rigid mode for flat surfaces
- Float mode for contoured surfaces
- Extra weight can easily be added to center frame
- Also ideal for two-tracks & weed control in pastures
- Useful for leveling fill & topsoil in landscaping
- Great for Tractor Pulls too!

- Available in 6, 8 or 10 foot widths.
- 6 footer weighs 400# (20HP & Up)
- 8 footer weighs 450# (25hp & UP)
- 10 footer weighs 600# (35hp & Up)

Optional accessories:

- The adjustable DS Quick-tatch adapter (right) attaches to any DS Scraper making it quick-tatch & Cat. 2 capable

DS Ripper Blades (below) provide a more aggressive cutting edge for harder & packed surfaces
